

# FATIMA

The Original Turkish Blend

Why they're Sensible

OCCASIONALLY, a more heavy, full-powered cigarette than Fatima tastes mighty good. But heavy cigarettes are a little too "oily" and rich to suit most men for long. You are certain to find more comfort in a delicately balanced blend like Fatima. Because Fatimas leave a man feeling keen and fit even after smoking more often than usual. That's why they're sensible. Prove it yourself.

### How He Felt.

The conditions in the trenches were dreary in the extreme after the drenching and long continued rainfall, but the irrepressible spirits of the "Pals" were not yet entirely quenched when the order came to leave the trenches.

"Hurry up out of this, my gallant soldiers," was the cheery call of the sergeant to his waist-deep and rain-soaked men.

"Soldiers!" came the derisive answer from one of them. "I'm not a soldier; I'm a blooming blarney!"—Tit-Bits.

A demonstration plot of alfalfa was put in this week at Clark Sibley's in East Montpelier and also one of an acre at C. M. Ladd's in Worcester. These plots are a little late in seeding but with favorable weather will come along all right. All the plots of soy beans are doing well, in many cases the beans have already reached a height of three and one-half feet. Beginning Sept. 1 the meetings will be held at these plots to measure the corn and beans and determine their value to the grower. Make it a point to attend the meeting nearest your locality.

Now is the time to start on your plan for eradicating the plots of witch grass on your farm. There are two methods which have proved successful. The first plan is to plow the land shallow at the present time and then follow with the disk harrow at intervals of a week until the ground freezes. Plow in the spring for a tilled crop. The other method which will leave the land in better shape is to plow deeply at the present time and harrow lightly just enough to keep the grass from appearing until Sept. 15, then sow winter rye, cutting this next spring and then running the disk over again to make a seed bed for a crop of millet to follow the rye at once. The secret is to smother the grass out; not allowing a single shoot to reach the top of the ground. The county agent would like a demonstration of this method in some badly infested field. Write about it.

Attached is the score card as it will be used at the stock judging contest at the picnic Saturday. Cut this out and study it. Apply it to some of your cows and get primed for the contest. The two breeds, Holstein and Guernsey, will be judged separately, so you may have your choice or judge both. Prizes will be given for judging in each breed. This is a chance to learn something about cows. After the contest, Prof. Storey will give his demonstration lecture and then the prizes will be awarded. Remember, there is a class for men and one for boys. Let's get into it and make it interesting.

F. H. Abbott,  
County Agent.

## RECOVERY OF NEW JERSEY WOMAN

Due To Lydia E. Pinkham's Vegetable Compound.

Bridgeport, N.J.—"I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound for inflammation and other weaknesses. I was very irregular and would have terrible pains so that I could hardly take a step. Sometimes I would be so miserable that I could not sweep a room. I doctored part of the time but felt no change. I later took Lydia E. Pinkham's Vegetable Compound and felt a change for the better after the second day. I took it until I was in a good healthy condition. I recommend the Pinkham remedies to all women as I have used them with good results."—Mrs. MILFORD T. CUMMINGS, 24 New Street, Bridgeport, N.J.

## SCALE COVERED DAUGHTER'S FACE

And Head. Thought She Would Lose Eyesight. Itched Continually. Disfigured Terribly.

## HEALED BY CUTICURA SOAP AND OINTMENT

"When my daughter was four weeks old, she had a dreadful scale which covered her face and head, and we thought for a time she would lose her eyesight. At first the skin was inflamed, and it itched continually and she could not sleep day or night. At last little red pimples with festering heads appeared and where the pimples had been, there would appear a horrid scale. It disfigured her terribly.

"Then I thought I would try Cuticura Soap and Ointment. After the third application we could see a marked improvement, and in a short time she was healed." (Signed) Mrs. Geo. Paddock, New Canaan, Conn., July 24, 1915.

## HOW TO BE RID OF DISGUSTING DANDRUFF

The only way to be permanently rid of disgusting, untidy dandruff is to correct its cause. Washing merely cleanses the scalp for a few days, and soon the scales form again as thick as ever.

To destroy the dandruff germ and get rid of dandruff for good, part the hair and apply a little of the genuine Parisian Sage directly on the bare scalp, and rub in with the finger tips for a few minutes, until the scalp absorbs it. Go over the entire head in this manner.

A few days' massage with Parisian Sage will destroy the germs that cause the dandruff to form. The scalp becomes healthy, the hair will grow better and show more life and vitality, and you need never be troubled by dandruff again. Faded, dull or lifeless hair is quickly restored to beauty by this simple process, which is absolutely harmless to hair and scalp, as it contains no poisonous wood alcohol and will not stain the hair or make it greasy.

Parisian Sage can be obtained from the Big Cross Pharmacy and druggists everywhere. It is not expensive—Adv.
